

NIHMS Tutorial: Reviewer's Initial Approval

Initial Approval

The Reviewer associates funding and approves the material for processing.

Deposit Files

Anyone can submit; however, an author or PI should serve as the Reviewer. Reviewers are notified of submissions via email.

Reviewer and Release Delay (Embargo)

Edit

After confirming the title information is correct, add applicable funding that is not already associated with the submission. If you logged in with a user account that has funding associated (e.g., a grant), you may also select the **My Funding** button to simplify the search process.

The screenshot shows a web interface with a dark sidebar on the left containing the following menu items: 'Funding', 'Files', and 'Reviewer and Release Delay (Embargo)'. The main content area has a dark header with the text 'Submissions to NIHMS for inclusion in PMC must be supported by a [participating funder](#).' Below this, there are two buttons: 'My Funding' (highlighted with a white border) and 'Search Funding'. A modal window titled 'Find supporting awards' is open, containing the text: 'Search for a supporting award ID or awardee name. If you cannot find an award, [contact us](#).' At the bottom of the modal is a 'Next' button and a progress indicator with three circles, the middle one being filled. In the background, a 'Confirm' button and a 'Reject Submission' link are visible.

If the project was not funded by any of the participating funders listed on the NIHMS Funders page, click the **Reject Submission** link.

If using the **My Funding** option, select applicable funding using the checkbox(es) to the left.

If using the **Search Funding** option, search by Award Number and/or Awardee Name and select applicable funding using the checkbox(es) to the left.

The **Add** button will display the total number of selected awards in parentheses.

Please click on the thumbnail(s) below to view the files and confirm that all [required materials](#)

Manuscript

After confirming all funding is associated, it is time to review the associated files and either **Confirm** they are complete or reject the submission.

Review file(s)

The files should reflect the peer-reviewed manuscript accepted for publication. Any referenced material, such as figures, tables, videos, or supplementary material, should be included here to avoid processing delays.

Next

If any files are missing, corrupt, or contain illegible text, click the **Reject Submission** link.

 **Designate another reviewer**

If you are not sure what [embargo](#) period to select, your publisher's website may have more information.

Release Delay (Embargo)

Select Embargo

 **Reject Submission**

Confirm

In the **Reviewer and Release Delay** section, you can designate a different author or PI to serve as the Reviewer, select or review the embargo, and either **Confirm** or reject the submission.

If you believe an embargo set by the publisher or funder at the time of the submission is incorrect, click the **Reject Submission** link.

Submission Statement

Manuscript Title: The potential of the

Journal Title: Environment intern

Funding: Z99 LM999999

Files: 1 manuscript, 1 figure

I am providing this manuscript to the National Institutes of Health after its official date of publication in the journal.

I confirm that:

- Right to Deposit – I have retained the right to deposit my manuscript in PubMed Central and make it available to the public on the terms and conditions of the Public Domain Dedication and License for the purposes described.
- Confidentiality – The manuscript may contain confidential information that must not be publicly disclosed prior to publication of the paper in the named journal.
- Peer Review – The version I am depositing has been peer reviewed and accepted for publication and includes all modifications resulting from the peer review process.
- Funding – The manuscript is the result of research supported, in whole or in part, by direct costs funded by the National Institutes of Health.

[⊘ Reject Submission](#)

[Return to Submission](#)

[Agree](#)

You have now reached the final step. Read and review the complete submission statement.

Review:

- ✓ That you retained the right to make this version publicly available in PubMed Central.
- ✓ That the paper has been peer reviewed.
- ✓ That the paper is the result of research supported by NIH or one of the other funding organizations that has partnered with NIH to use the NIHMS system.

If all this is correct, select the **Agree** button to complete Initial Approval of the submission.

Rejection Reason

Why would you like to reject this submission? (Select one.)

- This paper was not supported by a PMC-participating funder.
- I have made open access arrangements with a PMC-participating publisher program.
- I am neither an author on the paper nor a PI of the associated funding.
- This paper was not peer reviewed.
- The manuscript file will not open or contains illegible text.
- This is not the peer-reviewed, accepted version.
- This is not the final published version.
- I need to correct typos, edit for scientific accuracy, and/or replace the figure, table, video, or supplementary material files.
- Title and author information and/or materials referenced in the text have not been provided.
- I disagree with the release delay (embargo) set by the Submitter.
- Other

To reject the submission, you will be required to select one reason that best explains why. Some selections require you to enter a comment for the Submitter or NIHMS staff.

Please read before proceeding with rejection:

If the submitted version of the paper is not the [final, peer-reviewed manuscript](#) (also known as the “peer-reviewed, accepted manuscript” or “author manuscript”), please proceed with rejecting this submission back to the Submitter.

Comment for Submitter

Click the **Reject** button to reject the submission or the **Return to Submission** button to continue your review.

Submission Progress

[Learn more about the NIHMS submission process](#)

Once the submission is complete, you will be taken to a confirmation page.

In the next step, [NIHMS Conversion](#), the deposited manuscript is formatted for PMC. This step generally takes 2-3 weeks.

You will receive an email notification when the conversion is complete.

Your manuscript's progress will be updated in the [Submission Progress graphic](#) as it passes through each step.
