If using the **Search Funding** option, search by Award Number and/or Awardee Name and select applicable funding using the checkbox(es) to the left.

The **Add** button will display the total number of selected awards in parentheses.

Please click on the thumbnail(s) below to view the files and confirm that all **required material has been provided**

Manuscript

After confirming all funding is associated, it is time to review the associated files and click **Next** if they are complete.

Review file(s)

The files should reflect the peer-reviewed manuscript accepted for publication. Any referenced material, such as figures, tables, videos, or supplementary material, should be included in the Files section to avoid processing delays.

Next

If any files are missing, corrupt, or contain illegible text, click the **Reject Submission** link.

Reviewer and Release Delay (Embargo)

Reviewer

A [Reviewer](#) is responsible for completing the [initial approval](#) and should be an author or a PI.

You may designate a different Reviewer than the one listed below

i *If you are not an author or a PI for this paper, designate another Reviewer.*

Reviewer: Current User (Kathryn Funk)

[change](#)

Release Delay (Embargo)

Indicate public access release delay (embargo)

The [embargo](#) is the time period, in months, that the publisher retains exclusive rights to distribute the article after publication in the journal.

Select an embargo period

 [Reject Submission](#)

[Next](#)

In the Reviewer and Release Delay (Embargo) section, you can designate a different author or PI to serve as the Reviewer, select or review the embargo, and either proceed to the **Next** step or reject the submission.

Note: If you believe an embargo set by the publisher or funder at the time of the submission is incorrect, click the **Reject Submission** link.

Submission Statement

Manuscript Title: The potential of the

Journal Title: Environment intern

Funding: Z99 LM999999

Files: 1 manuscript, 1 figu

I am providing this manuscript to the National Institute of Health after its official date of publication in the journal.

I confirm that:

- Right to Deposit – I have retained the right to deposit my manuscript in PubMed Central and make it available to the public on the terms and conditions described in the purposes described.
- Confidentiality – The manuscript may contain confidential information that must not be publicly disclosed prior to publication of the paper in the named journal.
- Peer Review – The version I am depositing has been peer reviewed and accepted for publication and includes all modifications resulting from the peer review process.
- Funding – The manuscript is the result of research supported, in whole or in part, by direct costs funded by the National Institutes of Health.

[⊘ Reject Submission](#)

[Return to Submission](#)

[Agree](#)

You have now reached the final step. Read and review the complete submission statement.

Review:

- ✓ That you retained the right to make this version publicly available in PubMed Central.
- ✓ That the paper has been peer reviewed.
- ✓ That the paper is the result of research supported by NIH or one of the other funding organizations that has partnered with NIH to use the NIHMS system.

If all this is correct, select the **Agree** button to complete Initial Approval of the submission.

Rejection Reason

Why would you like to reject this submission? (Select one.)

- This paper was not supported by a PMC-participating funder.
- I have made open access arrangements with a PMC-participating publisher program.
- I am neither an author on the paper nor a PI of the associated funding.
- This paper was not peer reviewed.
- The manuscript file will not open or contains illegible text.
- This is not the peer-reviewed, accepted version.
- This is not the final published version.
- Title and author information and/or materials referenced in the text have not been provided.
- Multiple sets (either duplicative or different versions) of figures, tables, supplementary material, or other manuscript content were provided.
- I need to correct typos, edit for scientific accuracy, and/or replace the figure, table, video, or supplementary material files.
- I disagree with the release delay (embargo) set by the Submitter.
- Other

Please read before proceeding

If the submitted version of the paper is not the [final, peer-reviewed manuscript](#) (also known as the “peer-reviewed, accepted manuscript” or “author manuscript”), please proceed with rejecting this submission back to the Submitter.

Comment for Submitter

To reject the submission, you will be required to select one reason that best explains why. Some selections require you to enter a comment for the Submitter or NIHMS staff.

Click the **Reject** button to reject the submission or the **Return to Submission** button to continue your review.

About ▾

Thank you for approving the submission!

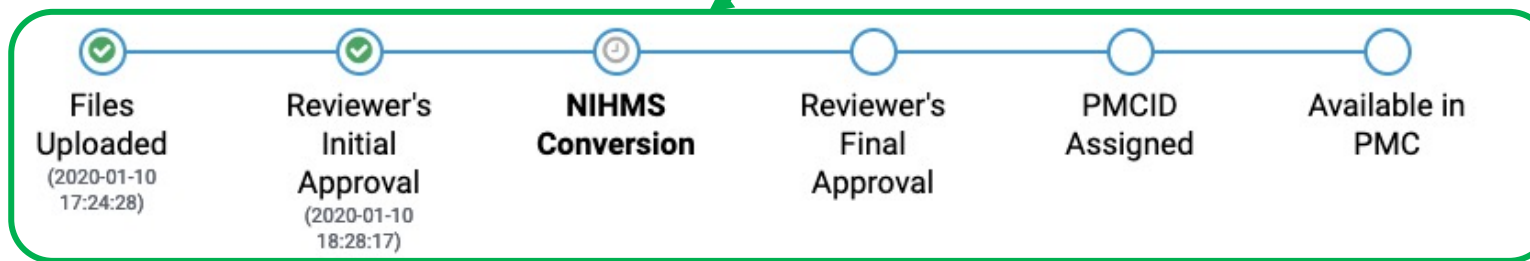

Manuscript Information

Manuscript Title:	The potential of the organic micropollutants emission from swimming accessories into pool water.
Journal Title:	Environment international
Release Delay (Embargo):	Immediately
NIHMSID:	3000152
PMID:	31918336

Please Note: Manuscript deposit via NIHMS is a multi-step process that currently takes approximately 2 to 3 weeks following initial approval complete submission. Processing times may vary depending on Reviewer responsiveness and the volume of submissions during a given period.

Submission Progress

[Learn more about the NIHMS submission process](#)

Once the submission is complete, you will be taken to a confirmation page.

In the next step, [NIHMS Conversion](#), the deposited manuscript is formatted for PMC. This step generally takes 2-3 weeks.

You will receive an email notification when the conversion is complete.

Your manuscript's progress will be updated in the [Submission Progress graphic](#) as it passes through each step.
